Irwin Frerichs is still wondering what happened. He was found unconscious lying on the ground up on the Frerichs ranch last Saturday morning, and his horse was grazing nearby. Irwin says the last thing he remembers he was trying to head a cow; his mount being rather reluctant to run, and spurs not proving effective to make him "get a move" on himself, Irwin rapped him with a rope he had in his hand which had the desired effect and the horse did his best. That is the last Irwin remembers. The Mexicans who found him notified the Graffs, and relatives in Hondo were called, and went to the scene. He was placed in a car and started to town. When the car was opposite the Auditorium, in town, Irwin came to himself and wanted to know what had happened. That was just what the others wanted to know. The general belief is that while Irwin was watching the cow his horse went on one side of a tree and Irwin on the other, as his body was under a tree, and the tree showed the loss of some bark. Besides being somewhat bruised up and sore, he did not suffer any serious injury, for which his friends are thankful.

Old Solomon was rich and wise. The ways of fame are funny. His proverbs to this day we prize. Who cares about his money?

Not Likely.  
"Is Mr. Blobby in?" asked the brisk stranger.

"He's out at lunch," said a clerk.  
"Ah! Will he return within an hour?"

"Why—er—he went out with his new stenographer, sir."  
"Umph! Do you expect him back today?"

Realms of Imagination.  
"What do you think of the poets?"

"I never used to care for them," replied Senator Sorgum, "but I'm beginning to think it would be better if more ladies and gentlemen practiced poetry writing instead of letting their fancies take the form of suggestions for new political systems."

Her Selection.  
Mabel—However did you make up

your mind to marry George instead of John?

Helen—Very simple. I went out with each on a dark day. John said: "It looks like rain, but we'll take a chance." George said: "It looks like rain. We'll take a taxi!"—Judge.

"Shucks," said the prosperous Kansan. "You're just halfway to Hollywood. Let me show you some of the finest farming land in the world."

"What on earth is the matter with it?"

"Dunno, but it must be something terrible. The landlord voluntarily offered to paper it throughout."

Couldn't Give Any Less.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 75c per bottle

**With the Drillers.**

We have but little definite information  
as to the situation at the Schmidt  
No. 2 of the Ina Oil Company. That  
the well is a fairly good one—between  
50 and a 100 barrel producer—is the  
opinion of those who claim to know.  
It is reported that the oil being of a  
very heavy grade the screen inserted  
was too fine and will have to be re-  
placed by a coarser one before the  
full capacity of the well can be de-  
finitely established. Enough is known,  
however, to establish the fact that the  
well beyond question will prove a pay-  
ing proposition. The well was to be put  
on the pump yesterday, and as the  
guards which were on duty down there  
for several days as a precautionary  
measure have been relieved it is prob-  
able information in future will be  
more readily obtained.

Smith & McDonald, drilling on the  
Wilson ranch, are going down with a  
rush. Their location is some 500 yards  
southwest of the Ina Oil Company's  
well. These gentlemen are experienced  
drillers, having operated many  
years in the Tampico field, and baring  
accidents, their well will reach a very  
interesting stage by the end of the  
coming week.

A 30 Star rig was moved to the Zerr  
place, some five miles northwest of  
Hondo the past week, but as far as  
we know the well has not as yet been  
spudded in. This is new territory and  
the downward course of the drill will  
be watched with interest.

Driller Wolff, on the Mofield ranch  
has, we learn, encountered some hard  
rocks and is making rather slow pro-  
gress. However, obstacles of this na-  
ture will probably grow less as the  
drill proceeds downward.

**Produce Both  
With Purina Chows**

Why do Purina-fed hens  
lay more eggs right through  
the moult? It's because  
they get more protein and  
it takes lots of it for feathers  
and eggs. Feathers run  
as high as 90% protein.  
Whites of eggs are nearly  
all protein. Feed a balanced  
ration.

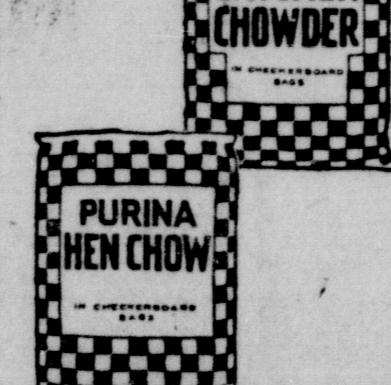

**Enough Protein for  
Feathers and Eggs**

Purina Chows keep the hens  
from robbing their flesh to  
get the materials they need.  
Get a shorter moult and  
more winter eggs. Ask about
